## OBJECTIVE

Passionate and creative frontend developer with a solid background in software engineering and a deep understanding of responsive web design. Proficient in HTML, CSS, and JavaScript, with expertise in Vue.js, and experience using Adobe XD and Figma. I have a strong interest in expanding my knowledge in UX/UI design, which was the theme of my master's dissertation. With a drive to make a positive impact and bring innovative solutions, I am eager to contribute my skills and expertise to the success of a new company, delivering outstanding web experiences.

## EDUCATION

### MSc in Software Engineering

University of Minho

Sep 2020 - Oct 2022

Dissertation:

"Improve human resources management via UX/UI"

### BSc in Software Engineering

University of Minho
